

A

ATM

- adaptation layer, 57
 - cell, 57
 - description, 1
 - interface types, 3
 - signaling, 57
- atmarp entries, 54

B

- BBG commands, 5
- BBG configuration
- BBG/ATM configuration, 21
 - build entries in `bbg.config` file, 18
 - files updated, 12, 22
 - general network configuration, 17
 - installation tool, 12
 - manual configuration, 22
 - update `bbg.pvc` file, 20
 - update `hosts` file, 14
 - update `interfaces` file, 15
- BBG hardware requirements, 4
- BBG interface, verify and test, 28
- BBG software requirements, 4
- Booting the system, 53
- Building BBG software, 11

C

- Classic IP, 57
- Commands
- `initif`, 56
 - `install`, 12, 32
- Configuration
- files updated, 12, 22, 32, 43
 - for BBG interface, 11
 - for VME interface, 31
 - installation tool, BBG, 12
 - installation tool, VME, 31

- Configure up TCP/IP, 56

F

Files

- `atm.pvc`, 37, 46
- `atmv.cof`, 31
- `bbg.config`, 18, 23
- `bbg.pvc`, 20, 24
- `hosts`, 14, 24, 39, 48
- `interfaces`, 15, 26, 40, 48
- IOS configuration, 31
- `param`, 34, 35, 44
- to be updated, 12, 22, 32, 43

H

- Hardware requirements
- BBG, 4
 - VME, 6

I

- `import` utility, 12, 32
- Incident reporting, 10
- Installation
- BBG hardware, 11
 - BBG interface, 10
 - completing, 50
 - general information, 9
 - HIPPI channel, 10
 - UNICOS software, 10
 - VME hardware, 50
 - VME interface, 29
- Installation tool
- to configure BBG, 12
 - to configure VME, 31
- Installer qualifications, 9
- Introduction, 1
- IP encapsulation, 57
