## New Features

*Tape Subsystem Administration*

SG-2307 10.0

With the UNICOS 10.0 release, this manual documents the tape subsystem for both the UNICOS and UNICOS/mk operating systems. Its title, *UNICOS Tape Subsystem Administrator's Guide*, has been changed to *Tape Subsystem Administration*, Cray Research publication SG-2307. Any administration differences between the operating systems are highlighted in the text.

This revision documents the new and updated user exits, additional `errrupt(8)` information, updated configuration information, and man page changes.

Miscellaneous editorial and technical changes were made.

# Record of Revision

---

<i>Version</i>	<i>Description</i>
9.0	August 1995 Original Printing.
9.2	December 1996 Online documentation supports the administration of the UNICOS 9.2 release running on the Cray Research computer systems.
9.3	August 1997 Online documentation supports the administration of the UNICOS 9.3 release running on the Cray Research computer systems.
10.0	November 1997 Online documentation supports the administration of the UNICOS 10.0 release running on the Cray Research computer systems and subsequent UNICOS/mk running on Cray T3E systems.
